Old Business

New Business

Two Issues Presented by Kentucky:

1. Electronic Monitoring Across State Lines. States putting youth on electronic ankle monitoring who reside in another state. For example: Kentucky Judge ordering and placing a youth on electronic monitoring and the youth resides in Ohio or Tennessee. What if the youth violate? Can Kentucky charge the youth when the offense occurs in another state? Kentucky case managers cannot monitor a youth that reside in another state on electronic monitoring. I have noticed this is happening in Northern KY/Ohio and Western KY/TN. Are there any legalities? Can they do this across state lines? What would the stance be from the National Office?
2. Zoom Court Hearings Being Held Across State Lines. For example: If a Kentucky youth resides in North Carolina, charged in Kentucky and never travels to Kentucky for their court hearings. Can a Kentucky charged youth be sentenced at disposition while they are residing in another state VIA Zoom? What if the youth is sentenced VIA Zoom as a sex offender? What are the legalities? What would the stance be from the National Office?
